

Registration

We encourage families to stop by the EDP portable classroom any day during program hours.

Seeing the comfortable “living room” space and meeting the teachers and students, will help your child to see that the EDP is a terrific place to spend time after school. You can pick up registration materials there or from the middle school office.

Simply drop your completed forms in the office along with a check made out to Baltimore Lutheran. We suggest opening an account with at least \$60. Fees are subtracted from this account each day your child attends the program. Unlike many after school programs, you will never pay for days your child does not attend!

We look forward to serving your family!
